The Senate Continues Consideration of the Land Grant Forfeiture Conference Report - Democrats Still Obstruct Work in the House -Capitol Notes.

Washington, Sept. 12.—This morning for the first time in several months the ways and means committee held a session. The purpose was to discuss the treasury and senate amendments to the tariff bills and the session was so consumed. As the bill itself had not reached the committee no formal conclusions could be noted and the proceedings were entirely confined to the proceedings were entirely confined to general discussion. On one point there seemed to be practical agreement, and that was that the amendments should be considered by the committee instead of neceding at once to the request of the senate for a conference. As to how much time should be allotted to that proceeding there seemed to be a diversion of opinion, but there was a pronounced disposition on both the Republican and Democratic sides to hasten the action in the committee as much as possible.

It is said by some Democratic members that the feeding with which their party associates will lend themselves to the Republican efforts to hasten the final disposition of the bill is conditional upon the program which is to be adopted by the Republicans in the house for the remainder of the seesion and that if it should be attempted to pass the threatened resolution to interfere with the Ohio districts, as established by the last gerrymander, or to to interfere with the Unio districts, as es-tablished by the last gerrymander, or to force through other pronounced partisan measures, resort will be had to all the parliamentary means to obstruct the tariff

BUT LITTLE INCREASE LIKELY.

WASHINGTON, Sept. 12.—The inquiry instituted vesterday by the secretary of the treasury developed the fact that the total balance of duties due on all imported merchandise in bond at the port of New York on September 1 was only \$7,500,000. Only a moderate portion of these goods will be subject to increased duty under the schedule on the new tariff bill. These facts would seem to indicate that anxiety based on this feature of the situation has been largely without foundation. largely without foundation.

At Boston and Philadelphia monetary presure also affects business, at Unicago the market is somewhat firmer and the demand active; at St. Louis it is stiff at 7 to 8 per cent, at Kansas City more firm, at Omaha a trifle close but fairly supplied; at Milwankee very active and to some extendisturbed by a large lumber failure in the interior at Detroit the demand is strong interior, at Detroit the demand is at 7 per cent: at Cleveland the tightness is rightly ascribed to the volume of busi-ness, at Pittsburg the demand is fair at 6 to 7 per cent, and only at New Orleans, of all cities reporting, is the market easier. The immediate fright at New York was about supposed enormous demands for payment of duties, if the new tariff should go into effect October 1. The fact as offi-cially reported is that less than \$9,000,000 cally reported is that less than economic would pay full duties on all goods in ware house of which the rates have been increased, but no one supposes that the entire quantity would be taken out and meanwhile the treasury is now offering to pay out \$20,000,000 for 4% per cents, and \$25,000,000 in pay-payment of the interest on the 4% per cents.

If there were no speculative tendency in riering with the free movements of crops, commercial bills would draw money from abroad but an unfavorable crop report causes higher prices for staples and prior to that the exports had been very light, prices here being too high for foreign mar-kets. Breadstuffs had not been strong unprices here being too high for toreign markets. Breadstuffs had not been strong until Thursday, the latest information as to the yield being generally more favorable, but the government report as to condition September 1, enabled speculators to produce a "bear panic" and the net advance for the week has been 4 cents in wheat on sales of 20,000,000 bushels, 5 cents in corn sales of 10,000,000 bushels and 4 cents in oats. Lard and hogs were also stronger, and the report that cotton was in con-

oats. Lard and hogs were also stronger, and the report that cotton was in condition a shade lower than last year caused a rise of 1-16 cent with sales of 26,000 bales for the week. Other products have not changed much in price, though oil is 2% cents lower.

The reports from other cities indicate no lack of activity on account of momentary difficulties at any point west or south of Philadelphia. The reports as to collections are almost uniformally satisfactory. The crops are moving fast, prices encouraging. crops are moving fast, prices encouraging, but farmers do not go forward to constra-ers rapidly.
